Industrial Pharmacy Residency Program
Industrial Pharmacy Residency Program

Specialty in Medical Information

Astellas Pharma Canada, Inc. is pleased to offer an exciting one-year pharmacy residency in partnership with the University of Toronto, Faculty of Pharmacy.

The Industrial Pharmacy Residency Program provides recent pharmacy graduates with the opportunity to explore a career in Medical Information with the pharmaceutical industry.

The resident will be primarily tasked with responding to unsolicited customer inquiries and assisting health care professionals to make good decisions about patient care and product use.

During this rewarding 52-week program, the resident will learn more about Astellas’ key therapeutic areas and be able to use their pharmacy education to:

- Interpret and apply drug information for Astellas products.
- Formulate responses to drug information requests from internal and external customers.
- Update and develop standard responses to medical letters.
- Evaluate published medical literature.
- Apply documentation skills by utilizing the departments’ inquiry management database.
- Formulate adverse event and product complaint reports.
- Complete a major project that supports business satisfaction to the University of Toronto, Faculty of Pharmacy.

Applications and further information about the Industrial Pharmacy Residency Program can be obtained by contacting:

Leslie Dan Faculty of Pharmacy

Astellas Pharma Canada

Astellas Pharma Canada, Inc., a Canadian affiliate of Tokyo-based Astellas Pharma Inc., is a pharmaceutical company dedicated to changing tomorrow by improving the health of people around the world through innovative and reliable pharmaceutical products.

In 2005, Astellas was formed by blending the talents, resources and passions of two highly successful firms - Yamanouchi and Fujisawa.

In Canada, Astellas has an intense focus on five key therapeutic areas – Immunology, Urology, Cardiology, Dermatology and Infectious Disease – and is considered a leader in these fields.

At all levels throughout the company, our people are committed to the opportunity to positively affect and improve patient lives while remaining socially responsible to our community and those with whom we work and collaborate.
