

Pharm D for Pharmacist Program Ontario College of Pharmacists (OCP) Registration Process

All students must register with OCP at **least 2 months prior to the start of the first rotation in Ontario**. For any student already licensed as a Part A pharmacist in Ontario, an active license (including liability insurance) must be maintained for all your placements. For all other students, please refer to the OCP website – www.ocpinfo.com to view the various certificates of registration. It will depend on the circumstances of each applicant what type of certificate of registration will be applied for and be granted. Since it may take some time for the registration process depending on the requirements for a certification of registration, applicants are encouraged to contact OCP well in advance of the start of rotations.

If you require further information on this process, please contact OCP – Client Services for application and fees information or Registration Programs (regprograms@ocpinfo.com) for information on registration requirements.
