

LEADERSHIP GIVING

Medications are essential to life. They ensure you, your family and friends live longer, healthier lives. At the Leslie Dan Faculty of Pharmacy medication therapy is at the heart of everything we do.

By supporting our Faculty, you support the discovery of new drugs and drug delivery systems. You ensure our students gain the leading-edge knowledge and skills necessary to help Canadians get the most out of their medications. You drive educational programs and pharmacy practice innovations that revolutionize patient care across the world.

Consider making a donation today through our four Annual Funds: Shaping Student Life and Learning, the Centre for Pharmaceutical Oncology, the Centre for Practice Excellence, and the Research Annual Fund.

THE SHAPING STUDENT LIFE AND LEARNING FUND

Our Shaping Student Life and Learning Fund provides students the invaluable experiences that put learning into action outside of the classroom.

The Fund supports:

- ✓ Student Awards: scholarships (merit-based) and bursaries (financial needs based)
- ✓ Student-led activities and clubs
- ✓ International pharmacy internships
- ✓ Student attendance at industry conferences, such as the OPA or CPhA
- ✓ Student research presentations at a variety of seminars, conferences and student congresses.

THE CENTRE FOR PHARMACEUTICAL ONCOLOGY

Our Centre for Pharmaceutical Oncology advances groundbreaking cancer research at the Faculty. Cancer is now the leading cause of death in Canada. Your donation is enabling the Centre to discover new and improved diagnostic tools to detect cancer earlier and more accurately, and to develop new and more targeted medicines to treat the disease with increased precision and greater efficacy.

The CPO is also leading the development of undergraduate and graduate education related to oncology and research training offerings.

THE CENTRE FOR PRACTICE EXCELLENCE

Your generosity enables the Centre for Practice Excellence to fund leading-edge medication management research and innovations that enhance patient-focused care by providing our students and practitioners with the tools to maximize their potential as pharmacists.

RESEARCH ANNUAL FUND

The Research Annual Fund helps the Faculty remain nimble and responsive to our area of greatest research need from repairing and replacing lab equipment to providing seed grants to young researchers.
