

Job Description

Medical Affairs Pharmacy Resident

• Dermatology
beyond the skin

The Medical Affairs Pharmacy Resident will become an active member of the medical affairs team and is responsible for execution of medical strategies, and medical education initiatives and will contribute to the overall medical affairs strategy

This position develops the Pharmacy Resident's understanding of Medical Affairs and Medical Education. Particular focus will be on learning and communicating the science of Dermatology; development and execution of Medical Affairs projects and strategy; developing and execution of Medical education initiatives; an understanding of Medical Affairs operations policies and procedures; and cross-functional collaboration with Commercial and Patient Access teams.

Responsibilities of this position include:

Assist Medical Leads with the Medical Affairs initiatives

- Contribute to Medical strategic component of Brand Strategy and planning for launched products.
- Support the planning, development, and execution of advisory boards and speaker bureaus.
- Develop presentations and information materials targeting internal and external stakeholders.
- Participate in research projects in the areas of health economic and outcomes research, epidemiology, and modelling.
- Host internal & external meetings and journal clubs, and capture insights through the meeting minutes and action items.

Key Opinion Leader Development and Medical Education

- Accompany MSLs to liaise with external HCPs and thought leaders in order to disseminate scientific information, perform needs assessment and execute medical affairs plan.
 - Prepare and give clinical and scientific presentations to internal and external stakeholders as needed.
 - Foster medical and scientific information exchange between the medical community and LEO Pharma.
 - Collaborate with the MSL team and other Medical Affairs colleagues, assist in developing and maintaining up to date knowledge of the therapy area, including active participation in cross functional interactions discussions with Key Opinion Leaders and key stakeholders.
 - Collaborate with cross-functional partners in order to contribute to strategic initiatives and training of the sales/marketing, patient access and regulatory teams.
 - Attend internal and external meetings and conferences as needed and report back scientific advances, insights and key competitive intelligence.
-
