

LESLIE DAN FACULTY OF PHARMACY

INDUSTRIAL PHARMACY RESIDENCY PROGRAM

- Gain a specialized and marketable skill-set.
- Navigate the gap between pharmacy school and a career in the pharmaceutical industry.
- Develop innovative projects under the guidance of leaders in the pharmaceutical industry and the Leslie Dan Faculty of Pharmacy.
- Connect with fellow residents and build a professional network.

The Industrial Pharmacy Residency Program (IPRP) is a 12- 24 month residency administered by the Leslie Dan Faculty of Pharmacy in cooperation with participating pharmaceutical companies.

Each position offered is a specialized residency, which focuses on activities in one or two departments within a company. Residents will have the opportunity to develop specialty skills inside their chosen area of interest under the supervision of leaders within the pharmaceutical company, with the support of Leslie Dan Faculty members.

Residents will choose projects offered by the supervisor, including a major project to complete over the residency term.

For more information please visit pharmacy.utoronto.ca or contact pharm.residency@utoronto.ca

INDUSTRIAL PHARMACY RESIDENCY PROGRAM

Who is Eligible to Apply?

Graduating pharmacy students (Year 4) and pharmacists who have graduated within the last five years are eligible to apply. Applicants must have completed their degree by the time they begin their residency. All applicants must be legally eligible to work in Canada.

- Seagen

Positions offered by pharmaceutical companies are subject to change each year. For a complete listing of all positions offered for the upcoming application year, please visit our website.

APPLICATION REQUIREMENTS

1. University Transcripts
2. Resume/CV
3. Contact information for two references
4. Payment of application fee

RESIDENT COMPENSATION

Residents will be employees of the hiring company on a special project basis. For 2023-2024, the salary will be \$55,757.

Note: This is an educational residency program for graduates from a recognized pharmacy degree program; it is not an application for a position with a pharmaceutical company. An approved application to the program does not ensure a placement with a pharmaceutical company.
