AstraZeneca Industrial Pharmacy Residency Program 2023-2024

Leslie Dan Faculty of Pharmacy, University of Toronto

UNIVERSITY OF
TORONTO

AstraZeneca 
What science can do

A Message from our Executive Sponsors

On behalf of AstraZeneca and the Leslie Dan Faculty of Pharmacy at the University of Toronto, we would like to thank you for your interest in our Residency program. Our partnership with the Leslie Dan Faculty of Pharmacy Industrial Pharmacy Residency Program allows us to participate in the growth and development of the next generation of industry-based pharmacists.

As a global biopharmaceutical company, AstraZeneca provides innovative medicines for some of the world's most serious diseases. Pioneering new scientific ideas means never settling for second best and always being ready to challenge the status quo. That's why we look for people who share our thirst for knowledge, our love of innovation, and our ambitious approach to self-improvement. If that's you, why not discover everything that makes us a destination of choice for some of the brightest people in the global biopharmaceutical industry?

We value the talents and skills of our 61,500 employees in more than 100 countries. Our people strategy, which supports our strategic priority of being a great place to work, is built around four key pillars: build and develop organizations and capabilities; develop a strong and diverse pipeline of leaders; drive a vibrant, high-performing culture; and generate a passion for people development. This means we place emphasis on effective leadership, the acquisition and retention of great talent, setting clear targets, open lines of communications, excellent learning and development opportunities, and a healthy, safe and energizing workplace – within a performance culture in which diversity is valued and individual success depends solely on personal merit and performance.

Your Residency experience at AstraZeneca will yield a broad overview of key functions within the biopharmaceutical industry through real-world experiences and learnings. You will have the opportunity to engage with dedicated professionals who are pushing the boundaries of science to deliver life-changing medicines.

From all of us at AstraZeneca, we wish you much success and hope you strongly consider the AstraZeneca Residency Program as an investment in your personal career development and growth.

Our Purpose and Values

Pascal Soriot, CEO

Our values guide everything we do and underpin the delivery of our Global Scorecard targets.

We Follow the Science

- I am curious and push the boundaries of science
- I am creative in how I work with partners and collaborators

We Put Patients First

- I am proud to serve patients and consider them in every decision I take
- I strive to understand patients' needs and act accordingly

We Play To Win

- I am determined to make the right choices to win
- I build high performing teams that collaborate across the enterprise

We Do The Right Thing

- I am accountable for my actions and the success of AZ
- I speak up to ensure that all we do is aligned to our values

We Are Entrepreneurial

- I am brave, resilient and take smart risks
- I act with urgency and simplify the way work gets done

Available Residency Position

Global Regulatory Affairs: Oncology Regulatory Science, Strategy and Excellence (ORSSE)

Goal

- To become a high-performing regulatory strategist with experience across all stages of development and modalities of treatment relevant to oncology in the US and global markets

Overview

- The Resident will serve as a member of the Regulatory Strategy team, working directly in cross-functional product development teams to establish and execute regulatory strategy across global markets
- The Resident will develop capabilities in regulatory intelligence to evaluate key precedent and evolving trends in Regulatory Affairs to support cutting-edge regulatory strategy across the oncology portfolio
- The Residency will ensure foundational regulatory capabilities and experiences are developed, while providing the opportunity to expand expertise with projects in additional areas of interest

Fellowship Objectives

- Gain a thorough understanding of oncology Regulatory Affairs from strategy to implementation, through direct involvement in cross-functional product development teams
- Lead execution and coordinate defense of clinical trial submissions to important global regulatory agencies
- Participate directly in interactions with major global health authorities and contribute to regulatory strategy for formal meetings
- Utilize AstraZeneca's robust pipeline to foster strategic experience across modalities of treatment (biologics, small molecules, and cell and gene therapies)
- Advance a cross-functional understanding of drug development through work in matrix teams
- Engage in regulatory strategy discussions regarding evolving regulatory paradigms encompassing Oncology Drug Advisory Committee Meetings and evaluation of new health authority guidance, policies, and precedence
